# YATISH HEMANT BHARAMBE

Jalgaon, Maharashtra, India
yhbharmbe26@gmail.com | +91-8975512610 | LinkedIn | GitHub | LeetCode | Portfolio

## PROFESSIONAL SUMMARY

Cybersecurity professional with 15 months of hands-on experience in ethical hacking, penetration testing, vulnerability assessment, and security operations through remote and hybrid industry internships. Currently pursuing a **B.Tech in Computer Engineering (Cybersecurity)** and a **UG Diploma in Cybersecurity & Advanced Digital Forensics**, complemented by globally recognized certifications including **ISC2 Certified in Cybersecurity (CC)**, **Cisco CCNA**, **eJPT**, **CEH**, **OSCP**, **eWPT**, and the **Google Cybersecurity Professional Certificate**. Skilled in web and network penetration testing, Active Directory security, digital forensics, SIEM-based threat analysis, and security automation using Python, Bash, and PowerShell. Proficient in applying security frameworks and methodologies such as **MITRE ATT&CK**, **NIST Cybersecurity Framework**, and **OWASP Top 10** to identify, assess, and mitigate cyber risks. Strong analytical, problem-solving, and technical reporting abilities with a commitment to securing enterprise environments and supporting effective incident response.

## CORE SKILLS

- **Cybersecurity Risk Management:** Risk Assessment, Threat Modeling, Vulnerability Risk Analysis, Risk Prioritization, Mitigation Planning, Residual Risk Evaluation
- **Penetration Testing & Ethical Hacking:** Network Penetration Testing, Web Application Security Testing, Vulnerability Assessment, Exploitation, Post-Exploitation
- **Security Operations (SOC):** Incident Response, Threat Analysis, SIEM Log Analysis & Correlation, Alert Triage, Threat Hunting
- **Network & Infrastructure Security:** TCP/IP, Routing & Switching, VLANs, DNS, DHCP, VPNs, Firewall Configuration, IDS/IPS
- **Web & Active Directory Security:** OWASP Top 10, Burp Suite, SQL Injection, XSS, BloodHound Analysis, Kerberoasting, Pass-the-Hash
- **Digital Forensics & Security Frameworks:** Memory, Disk & Network Forensics, MITRE ATT&CK, NIST Cybersecurity Framework, Cyber Kill Chain
- **Programming & Security Automation:** Python, Bash, PowerShell, Security Scripting & Automation

## PROFESSIONAL EXPERIENCE

**Ethical Hacker Intern** **Jan 2025 – Jun 2025**
*Seconize Technologies* *Remote*

- Conducted reconnaissance and vulnerability assessments on web and network environments.
- Performed penetration testing activities and assisted in identifying security weaknesses.
- Utilized industry-standard security tools for enumeration, scanning, and exploitation validation.
- Prepared technical reports with remediation recommendations based on identified vulnerabilities.

**Cyber Security Intern** **Jul 2025 – Sep 2025**
*Prodigy InfoTech* *Remote*

- Performed vulnerability assessments and security analysis across simulated enterprise environments.
- Conducted network scanning, traffic analysis, and basic incident investigation activities.
- Worked with tools such as Nmap, Wireshark, Burp Suite, and OWASP ZAP for security testing.
- Assisted in documenting findings and mapping vulnerabilities to business risk.

**Penetration Tester** **Oct 2025 – Mar 2026**
*Securonix Networks* *Hybrid*

- Conducted network and web application penetration testing to identify exploitable vulnerabilities.
- Performed vulnerability validation, exploitation, and post-assessment security verification.
- Assessed enterprise security posture and provided risk-based remediation recommendations.
- Prepared detailed penetration testing reports aligned with industry best practices and security frameworks.

## PROJECTS

**AegisSOC — Threat Intelligence Platform** **Python, FastAPI, React, Neo4j, Redis**
*Distributed IOC Correlation & Real-time Automated Threat Triage* *Threat Intel*

- Engineered an autonomous threat intelligence engine aggregating 15+ threat feeds and correlating indicators of compromise (IOCs) with internal telemetry using graph databases.
- Generated STIX/TAXII compliant feeds with ML-driven threat scoring, processing 1.2M logs/sec, reducing false positives by 62%, and achieving mean triage time under 45s.
- **MITRE ATT&CK:** Initial Access (TA0001), Command & Control (TA0011), Application Layer Protocol (T1071).

**SpectreNIDS — ML Neural Intrusion Detection** **C++, Python, eBPF, PyTorch, Kafka**
*Deep Packet Inspection with Self-Supervised Anomaly Detection* *Defensive Ops*

- Engineered a hardware-accelerated packet capture pipeline leveraging lightweight autoencoder models for zero-day lateral movement and covert C2 channel detection.
- Evaluated at 40 Gbps bandwidth, achieving 99.4% detection accuracy with minimal packet latency (0.18ms) without relying on brittle static signatures.
- **MITRE ATT&CK:** Lateral Movement (TA0008), Exfiltration (TA0010), Exfiltration Over Alternative Protocol (T1048).

**Valkyrie — Cloud & Web Vulnerability Engine** **Go, AWS SDK, Docker, GraphQL**
*Headless Dynamic App Security Testing & Cloud IAM Auditing* *Offensive Sec*

- Developed a custom headless vulnerability scanner designed for CI/CD DevSecOps pipelines, scaling up to 250 concurrent workers.
- Automated AST audits, SSRF detection, OAuth misconfigurations, JWT forgery checks, and AWS IAM privilege escalation paths (identified 7 disclosed CVEs).
- **MITRE ATT&CK:** Privilege Escalation (TA0004), Exploit Public-Facing Application (T1190), Unsecured Credentials (T1552).

**ZeroVault — Kernel Malware Sandbox & Heuristics** **Rust, QEMU/KVM, Volatility 3, YARA**
*Isolated Hypervisor Detonation Chamber with Memory Forensics* *Security Tooling*

- Built a bare-metal virtualization harness for executing untrusted PE binaries and ransomware samples with a 180s sandbox detonation time.
- Automatically recorded API hooks, registry diffs, and memory dumps, extracting un-obfuscated YARA signatures with Level 4 Anti-VM bypass capabilities.
- **MITRE ATT&CK:** Defense Evasion (TA0005), Process Injection (T1055), Data Encrypted for Impact (T1486).

## PROFESSIONAL EDUCATION

- **UG Diploma in Cybersecurity and Advance Digital Forensics** — Massachusetts Institute of Technology, Oct 2024 – Nov 2029, GPA: 3.968/4.
- **Bachelor of Technology in Computer Engineering (Cybersecurity)** — Godavari College of Engineering, Aug 2024 – Dec 2028, CGPA: 7.1/10.
- **Higher Secondary Certificate (PCM)** — Dhanaji Nana Chaudhari Vidya Prabodhini, 65.83%.
- **Secondary School Certificate** — Raosaheb Rupchand Vidyalaya, 70.40%.

## CERTIFICATIONS

- ISC2 Certified in Cybersecurity (CC)
- Cisco Certified Network Associate (CCNA)
- E-LearnSecurity Junior Penetration Tester (eJPT)
- Certified Ethical Hacker (CEH)
- OffSec Certified Professional (OSCP)
- E-LearnSecurity Web Application Penetration Testing (eWPT)
- Google Cybersecurity Professional Certificate

## TECHNICAL PROFICIENCIES

- **Operating Systems:** Linux, Windows, Kali Linux, Parrot OS, Ubuntu.
- **Networking & Infrastructure:** TCP/IP, OSI Model, Subnetting, Routing & Switching, VLANs, DNS, DHCP, VPNs.
- **Penetration Testing:** Network Penetration Testing, Web Application Security Testing, Vulnerability Assessment, Exploitation, Post-Exploitation.
- **Web Application Security:** OWASP Top 10, Burp Suite, SQL Injection (SQLi), Cross-Site Scripting (XSS), Authentication & Session Testing.
- **Active Directory Security:** Enumeration, BloodHound Analysis, Kerberoasting, Pass-the-Hash, Lateral Movement, Privilege Escalation.
- **Security Operations (SOC):** Incident Response, Threat Analysis, SIEM Log Analysis & Correlation, Alert Triage, Threat Hunting.
- **Digital Forensics & Incident Handling:** Memory, Disk & Network Forensics, Evidence Collection & Preservation, Basic Malware Analysis.
- **Vulnerability Management:** Nmap, Nessus, OpenVAS, CVSS Assessment, Vulnerability Validation & Reporting.
- **Security Frameworks & Standards:** MITRE ATT&CK, Cyber Kill Chain, OWASP Top 10, NIST Cybersecurity Framework.
- **Security Tools:** Burp Suite, Metasploit Framework, Wireshark, Nmap, BloodHound, Gobuster, Hydra, John the Ripper, Hashcat.
- **Cloud & Security Fundamentals:** Cloud Security Concepts, Identity & Access Management (IAM), Zero Trust Principles.
- **Programming & Scripting:** Python, Bash, PowerShell, Basic JavaScript.
- **Languages:** English, Hindi, Marathi, Japanese (Elementary).

## SOFT SKILLS

- Analytical Thinking & Problem Solving
- Cybersecurity Risk Assessment
- Incident Response & Decision Making
- Technical Documentation & Security Reporting
- Attention to Detail & Evidence Handling
- Ethical Conduct & Responsible Disclosure
- Team Collaboration & Communication
- Adaptability & Continuous Learning
- Time Management & Task Prioritization
- Research & Threat Intelligence Analysis

## HOBBIES AND INTERESTS

Chess • Cricket • Cybersecurity Research
